FAMILIAR WITH - React Native, Node.js, Express, Expo, Docker, Django, MySQL, Gulp, Debian, Postman, Markdown, Sass, SCSS, Heroku, Netlify, GitHub Pages

## DESIGN SKILLS

User Interface Design, Responsive Web Design, Graphic Design, Page Layout, Typography, Figma, Zeplin, Photoshop, Illustrator, InDesign

## TECHNICAL PROJECTS

**Trip Planner** - [Github Client](#) | [Github Server](#) React.js, Semantic UI, Rails, PostgreSQL

*Dynamic single-page app that allows a user to create trips and add a packing list and itinerary for each trip*

- Collaborated with two team members and built the CRUD app within a 7-day timeline
- Utilized Semantic UI interactive elements to style Trips page and improve user experience
- Contributions: designed Trips page user interface, implemented edit form toggle function, installed and set up Semantic UI, created new user form, added back end user validation

**Le Chat** - [Github Repo](#) HTML5, CSS3, JavaScript, Socket.IO, Node.js, Express.js, Moment.js

*Web app that allows users to join rooms and chat in realtime*

- Integrated Socket.IO to enable realtime communication between multiple users
- Utilized Moment.js to display current date and time

## EXPERIENCE

**UI/UX Designer** 08/2020 - Present

Interlude Musical Outreach | Irvine, CA

- Collaborating remotely with board members, UI/UX designers, and developers to design and build an iOS app for volunteer instructors and students to make private music lesson appointments
- Technologies: Flutter, Firebase, Figma

**Front-End Developer** 06/2020 - Present

WinMyVote, [www.winmyvote.com](#) | Seattle, WA

- Working with React.js, HTML, SCSS, and Bootstrap to update the teacher and student sign up pages for the 2020 National Student Mock Election

**Front-End Developer** 06/2020 - Present

National Student Mock Election, [www.2020nsme.com](#) | Seattle, WA
