Adobe InDesign

TECHNICAL PROJECTS

Trip Planner
Github Client | Github Server

Dynamic Single Page App that allows a user to create trips and add a packing list and itinerary to each trip.

+ Collaborated with two team members to build the CRUD app within a 7-day turnaround time
+ Implemented logic for new user form
 Implemented logic for toggle buttons to view a trip's edit forms
+ Utilized Semantic UI interactive elements to style user interface and improve user experience
+ Front-End: React.js, Semantic UI
+ Back-End: Rails, PostgreSQL

Leopardy!
Github

Ruby CLI trivia game inspired by Jeopardy! and Pup Quiz from The Tonight Show Starring Jimmy Fallon.

+ Built with Ruby, ActiveRecord, and SQL within a 4-day turnaround time
+ Implemented logic to allow the user to create, update, and delete an account
+ Implemented logic to create three game rounds with a question clue and three multiple-choice answer format
+ Incorporated ASCII logo and visual design elements to improve user experience
